the Year

PROFILE

I am seeking employment with a company that is comprised of dedicated professionals who collaborate to provide cutting-edge technology and innovation. My passion is to develop my programming/web development skills so that I can provide the most efficient and highest quality services possible.

EXPERIENCE

UNION COLLEGE // 2016 – 2017

Student Programmer

Developed web applications, created reports, and assisted head web programmer in providing additional functionality to existing web applications for Union College.

- Examples of projects include providing additional functionality for a timeclock system, generating timeclock reports, and developing specialized web applications for various faculty members.
- Primary languages and technologies used include C#, AngularJS, SQL, HTML, CSS, Bootstrap, Microsoft Visual Studio, and SSRS.

UNION COLLEGE // 2014 - 2015

Assistant Web Developer

Researched and provided additional functionality for the Union College website. Responsibilities include adding modules and scripts through the Drupal system.

- Worked conjunctively with another assistant web developer in writing scripts to enhance website performance.
- Primary languages as technologies used include Drupal Content Management System, HTML, CSS, and JavaScript.

UNION COLLEGE // 2016 - 2017

Student Financial Services Assistant

Assisted with the origination and disbursement of various types of student loans and worked as the front desk receptionist.

- Primary technologies used include PowerFAIDS, PowerCampus, and Microsoft Excel.
